OVERVIEW

Compact. Capable. Complete.

The Stormbreaker 18'6" XP-Tech is our most advanced compact family van — and it punches well above its weight. Engineered for families who refuse to compromise, this caravan effortlessly combines snug comfort with stylish design and genuine off-road durability. Whether you're navigating corrugated outback roads or pulling into a coastal campsite, the Stormbreaker is built for the journey.

 **QUEEN BED — EAST-WEST ORIENTATION**

 **2 OR 3 BUNKS — 1.9M EACH, WITH WINDOWS**

 **FULL OFFROAD IND. 3.5T (AIRBAG READY)**

 **SLEEPS 4-5 — IDEAL FOR THE WHOLE FAMILY**

 **DIESEL HEATER** **400AH LITHIUM BATTERIES**

The east-west bed orientation is the clever space-saving secret that lets this compact 18'6" van accommodate queen sleeping, two full bunks, and a split bathroom — all without feeling squeezed.

KEY FEATURES

Built for Families. Built for the Road.

01

SMART SLEEPING LAYOUT

Queen east-west bed for the parents, plus two or three spacious 1.9m bunks with windows for the kids. Sleeps 4–5 comfortably in a compact footprint.

02

OFFROAD ENGINEERED

Full Offroad Independent 3.5T (Airbag Ready) suspension, 16" alloy wheels with heavy-duty offroad tyres, 12" electric brakes, and Raptor coated protection front, sides and rear.

03

04

SOLAR POWER SYSTEM

800W of solar (4 × 200W panels) keeps you powered off-grid. Backed by 2 × 200Ah lithium batteries.

05

SPLIT BATHROOM

Separate shower and toilet for practicality on the road. ABS lightweight shower, Thetford toilet, and an external shower for rinsing off after adventures.

EFFICIENT APPLIANCES FOR OFF-GRID

Full-size 188L Dometic compressor fridge & brushless reverse cycle aircon, Oven (3 x Gas | 1 x Electric Burner and Grill or Induction), and 25L Microwave for effortless meal prep and a Washing machine

06

OFF-GRID LIVING

Victron 3000W inverter management system with Cerbo GX 70 display, 2 × 30A MPPT, 30A DC-DC with 400Ah, LED lighting throughout, USB charging, wireless multi switches, bug lights, reverse camera, and front/rear LED light bars & fans

XP-TECH TECHNOLOGY

Innovative.
Timeless.
Tough.

XP-Tech panels are advanced sandwich-structured composites combining a fiberglass-reinforced plastic surface with an XPS foam core. Unlike aluminium panels, they resist dents. Unlike wooden frames, they are moisture-resistant — no rot, no leaks. A caravan built for generations.

LIGHTWEIGHT

XP-Tech composite panels are designed to be lightweight — easier to tow, compatible with a wider range of vehicles, and more payload capacity for your belongings.

**WATERPROOF
& ROTPROOF**

Built using seamless one-piece construction, minimising water leak risk. The ultimate solution for long-lasting protection against Australia's harsh conditions.

**NOISE
INSULATION**

Superior acoustic properties significantly reduce sound transmission from inside and out — creating a quiet, relaxing atmosphere whether in a caravan park or the outback.

**THERMAL
INSULATION**

Superior thermal efficiency helps maintain cooler interiors in summer, warmer in winter — reach your ideal temperature faster using less energy, especially off-grid.

**SUPERIOR
STRENGTH**

CFRT skins use thermoplastic properties laminated with continuous fiber-reinforced unidirectional tapes — unparalleled toughness, high durability, and exceptional impact damage tolerance.

**COST
EFFECTIVE**

Lighter construction reduces fuel consumption for your tow vehicle — saving you money on every trip while minimising your environmental impact across Australia's roads.
