01 OVERVIEW

The Eclipse. *Elevated.*

Introducing the Eclipse 18'6" XP-Tech — our compact two-berth caravan, now upgraded with XP-Tech composite construction. The most notable feature is the massive rear ensuite, ideal for a couple who loves to travel for extended periods. Built with premium interior, exterior and mechanical features, with even greater durability, insulation and off-grid capability thanks to the XP-Tech upgrade.

02 **XP-TECH TECHNOLOGY**

Built to Last *Generations.*

XP-Tech composite panels combine a fiberglass-reinforced plastic surface with an XPS foam core — engineered to be tougher, lighter and more durable than traditional meranti or aluminium frame construction.

XP-TECH

LIGHTWEIGHT CONSTRUCTION

Composite panels reduce overall weight, making the caravan easier to tow and compatible with a wider range of vehicles.

WATERPROOF & ROTPROOF

Seamless one-piece construction minimises water leak risk. No internal cavity rot — unlike timber-framed alternatives.

SUPERIOR STRENGTH

CFRT skins with continuous fibre-reinforced tapes offer unparalleled impact damage tolerance and high surface strength.

HIGH THERMAL INSULATION

XPS foam core delivers superior thermal efficiency — cooler in summer, warmer in winter, using less energy off-grid.

NOISE INSULATION

ANTI-CORROSION

Significantly reduced sound transmission creates a quieter, more comfortable interior — ideal in caravan parks.

Complete anti-corrosion properties and electrical insulation — built to withstand Australia's harshest conditions.

03 KEY FEATURES

Everything *Upgraded.*

01

COMPOSITE FIBERGLASS FRAME

The XP-Tech frame uses composite fiberglass sandwich panels — replacing meranti timber. Superior strength, lighter weight, moisture-resistant, and built for a lifetime of Australian adventuring.

02

VICTRON POWER SYSTEM

The Victron Management System delivers 3000W of inverter power, a 120A charger, 2 × 30A MPPT solar regulators and 30A DC-DC charger — all monitored via a Cerbo GX 70 with 7" touchscreen display. Paired with 800W of solar and 2 × 200Ah Lithium Batteries.

03

RAPTOR COATED PROTECTION

Full Raptor coating — front 900mm, sides 700mm, back 900mm — plus fibreglass cladding and a Raptor coated chassis. Combined with a Truss Chassis with 6" raiser and 2" raiser for serious off-road clearance.

04

MASSIVE REAR ENSUITE

ABS shower, Thetford toilet, premium black taps, black round basin, single bowl black sink, 3-way tap with water filter, and a 3KG washing machine — designed for extended couples travel.

05

CORIAN STONE BENCHTOP

A Corian stone or laminate benchtop — an XP-Tech exclusive upgrade over the standard Off-Road model — alongside premium laminate UV-resistant cupboard doors, full-height kitchen splashback, and a Dometic DRS.

06

EXTENDED CONNECTIVITY

Anderson plug for solar blanket, wireless multi switches, bug lights, side markers with reflectors — plus Instant Hot Water and an Electric Carefree Awning. Built for long-term off-grid living.
